👥 Internships

Praktikum at MR:Comp, Gelsenkirchen
June 2022 — October 2022

Entwicklung eines Chatbots

★ Projects

Moodle Test Management System
Built a full-stack web app with NodeJS to allow users to upload Moodle programming tests. Besides functions like filtering and tagging, classes with different tasks can be generated which can be exported in the end

Reservation Platform
Developed a full-stack web application using Django and ReactJS, enabling users to sign up and buy a subscription to host their store for reservations. Subsequently, managers can oversee the bookings.

Chatbot
Developed a chatbot paired with a web interface utilizing Python, Django and JavaScript. In addition, a full web application was developed to extend and monitor the dataset used for training the model.
